Melissa,

For ferrets (2019-018), Ari didn't want to make a change to his response. His reason for this was because the petition was for FGC to determine that ferrets are not wild animals. But we don't usually give that as the reason for FGC denying the petition. Are you comfortable with that?

The rationale he provided in the AML is that "FGC did not determine that ferrets are not wild animals."

The staff recommendation provided to FGC, which FGC adopted, was:
"This item was the subject of petition 2016-008, denied by FGC in Oct 2016. The rationale for that denial is the same here. A copy of the previous memo is provided as Exhibit A6."

Thanks, Ari! Would you and Susan please take another look at the Alton ltr? I made a few additional proposed edits.

Susan, need you to take another look at the Wright letter.

I've printed and this afternoon will sign the Preston ltr.
